

## Results Beyond Belief Gold

This is the deluxe version of Results Beyond Belief and is probably the fastest way there is to experience dramatic, permanent improvements and experience life at a higher level of vitality, joy and purposefulness. You will receive at least 100 minutes of attention from me over the course of this program.

Included is daily energetic optimization (some of it done remotely) for a week (a total of 7 days) on up to 3 challenges in any area(s) of life - health, finances, relationships, career/purpose, aging and fitness. As part of the work any relevant family and/or workplace or school relationships are addressed, which means that more people than just you are benefitting.

Your week begins with a 45-minute phone or Skype session in which you name the problem areas you'd like to improve, and I get a sense of your energetic territory. During that session I will begin the optimizations you will be receiving, and will continue the strengthening remotely over the course of the week, finding other, deeper causative layers and facilitating permanent change.

As the week proceeds we will be in regular contact through either email or a Dropbox folder that will be set up for you, so you can let me know (after each of my mini-sessions) what's still bothering you on your chosen issues and I can fine-tune the work. At the end of the week we will do an additional 30-minute live session to go over anything you need to know about what has been done, perform some final optimizations and specify any ongoing actions you are to take to maintain the improvements. If additional work is required or requested of me, that will be scheduled and billed on an as-needed, mutually agreed basis.

### **Group version**

This is for two or more people who have a primary weakness in the same area of life (relationships, health\*, finances, career/purpose, etc.) After you purchase this option you will be placed onto a list awaiting others (at least one other person) with the same area of greatest weakness to show up to share the time with you (at which point we will schedule mutually acceptable meeting times), or you may enroll with one or more friends or family members with the same general area of greatest challenge. There is a synergistic benefit to this format, since, as well as benefitting from the strengthening each one receives, members of the group energetically support each other. It is of course also a more economical way to receive Results Beyond Belief.

\*Please note - Just because you are facing physical (health) challenges that does not mean

that this is the area the problems are originating from. They may, for example, primarily be due to weaknesses in the area of relationships.
