

# Results Beyond Belief Gold

This is the deluxe version of Results Beyond Belief and is probably the fastest way there is to experience dramatic, permanent improvements and experience life at a higher level of vitality, joy and purposefulness. You will receive 100 minutes of attention from me over the course of this program.

Your week begins with a 40-minute phone or Skype session that begins with you naming the problem areas you'd like to improve and me getting a sense of your energetic territory. During that session I will perform optimizations, going as far as my guidance tells me we can go in this session.

Over the course of the next one or more weeks I will continue the strengthening remotely, finding other, deeper causative layers and facilitating permanent change. Each day (6 days per week) I will connect with you telepathically to see if there is something to address and what that is. I will keep track of the minutes used, deducting them from your original purchase.

As the in-between time proceeds we will be in regular contact through email, so you can let me know (at any time you like) what's still bothering you and I can fine-tune the work.

At the end of this period - the length of which is totally under your control - we will do an additional 25-minute live session to go over anything you need to know about what has been done, perform some additional optimizations and specify any ongoing actions you are to take to maintain the improvements. If additional work is required or requested of me, and if there is no more time remaining in your 100-minute account, the additional time will be scheduled and billed on an as-needed, mutually agreed basis.

## **Group version**

At this time this option is only being offered to two or people who would like to work on their relationship.
